

Completed 5/1/19 for School Age

Required Medical Forms Per EEC

Individual Health Care Plan: An IHCP is needed to ensure the child receives health care services he or she may need while attending the program.

Must have IHCP for any chronic medical condition

- Asthma
- Diabetes
- Seizures/Epilepsy
- **ANY** Allergies

Action Plan: An Action plan is a plan that is used for emergencies. It explains the steps that need to be taken when this emergency occurs.

An Action Plan is needed for any chronic medical condition

- Asthma
- Diabetes
- Seizures/Epilepsy
- **ANY** Allergies

If parents indicate there is no action plan, then we MUST receive a letter from the doctor stating this

Medication Consent Form: The medication consent form is required for all medication provided at the site. It gives the program consent to administrate the medication as well as all medication information needed to ensure the medication is administrated correctly.

Medication Consent Form is required:

- For **ALL** medications provided to the program
- ADHD

Medication Administration Record: Is used to document the medication administered to a participant.

The **Medication Administration Record** should be stapled or copied together on the back of the **Medication Consent Form**.
